Naked Lavender - Pure Wild Lavender Candle

DESCRIPTION

A pure, single-note fragrance that captures the essence of fresh lavender fields — soothing, herbaceous, and deeply calming, made to quiet the mind and invite gentle relaxation.

Lavender has been burned, infused, and breathed for calm across cultures for centuries — from Roman baths to the apothecary garden to Ayurvedic and folk practice. We honor that simply: one pure scent, from **real lavender essential oil**, never a synthetic “fragrance” imitation of it.

Blend:

- **Lavender Essential Oil** — a soft, floral-herbaceous aroma with clean, slightly camphorous notes, long loved in aromatherapy for easing tension and inviting restful calm.

The candle releases a gentle, enveloping wave of true lavender that helps the day’s tension melt away and sets a serene, quiet mood. Its clean, natural profile evokes fresh-cut lavender bundles, warm summer evenings, and the comfort of deep, restful peace. Perfect for bedtime wind-downs, meditation, a stressful day when you need to unwind, or any time you want to feel held in soft, gentle calm.
