All plants are edible T-Shirt

DESCRIPTION

Every wildcrafter's favorite warning, worn with a wink:

"All Plants Are Edible — Some Only Once."

A tongue-in-cheek salute to foragers, mushroom hunters, and anyone brave enough to taste the wilderness (carefully). The botanical illustration keeps it elegant; the punchline keeps it honest.

Because knowing your greens is the whole difference between dinner and a very memorable afternoon.

Forage smart. Laugh often.
